

POST DELIVERY CHECKLIST

NOTE: The Post Delivery Checklist is essential for commencing the warranty period of your Dutchman product. Once completed, the Post Delivery Checklist should be returned to your local authorized Dutchman dealer. If purchased directly, the Checklist may be emailed to info@dutchmantreespade.com or faxed to (905) 683-8213.

1. Check that the correct manual was received alongside the product.
2. Check that the control device is included with the product.
3. Check that all hydraulic hose lines and hydraulic connections are secure and undamaged.
4. Check that all electrical lines and connections are secure and undamaged.
5. Check that all supplementary products or equipment (ie. stabilizers) are present and include all required hook-ups and brackets. Note: supplementary products may be delivered in a separate cardboard box.
6. Visually inspect all items for signs of damage that may have occurred during shipping.
7. Once the Dutchman product is removed from the banded pallet and secured properly on the loader device (see mounting procedures in the product manual), ensure that all functions are working normally and there are no pressurized hydraulic leaks.
8. After the product has been cycled several times, check that all hydraulic fittings are still tightened within their intended tolerances.

Additional Notes or Concerns:
